

Kayak Chi Town

A unique way in which to experience Chicago is by kayaking down the city's river! Spend the better part of your day enjoying the city making new friends and checking out the towering skyscrapers from the bottom up.

The best way to rent a kayak is to head down the stairs at the Columbus and Wacker entrance of the Riverfront. There you will find the Urban Kayaking company where you can rent or join a tour of the Chicago riverfront. If you have experience, you can rent a kayak on your own or with a new friend! If this doesn't sound like your jam, you can take a tour with a guide along the Chicago River.

Throughout the year, and specifically the summer, Chicago's Navy Pier is home to fireworks that occur twice a week. For an adventure unlike any other, rent a kayak and get on the Chicago River to experience fireworks like never before! You can either rent a kayak or Urban Kayaks has specific tours that showcase these nightly fire extravaganzas.

Directions (From FOUND):

Driving to Urban Kayaks takes less than 10 minutes and walking will take you about 25 minutes. Our suggestion would be to download Via/Lyft/Uber and take it to Urban Kayas off of Columbus and Wacker.

Walk down the stairs to the Riverwalk on the south side of the river at Columbus and Wacker. Urban Kayak is located east on the Riverwalk a few hundred yards.
